SUMMARY

Enthusiastic **SOC Analyst** with ~9 months of hands-on experience in **security monitoring, incident response, and log analysis**. Skilled in using **SIEM tools (Splunk, QRadar)** to detect and mitigate threats. Strong understanding of **phishing, malware analysis, and escalation procedures**. Passionate about **cybersecurity** with a continuous learning mindset, seeking to contribute to a **Security Operations Center (SOC)** team.

SKILLS

- **Scripting & Automation:** Python, SQL, Bash.
- **Security Tools: Splunk**, **IBM QRadar**, Wireshark, SIEM platforms.
- **Core Skills:** Incident Response, Log Analysis, **Threat Detection**, Phishing Analysis.
- **Networking:** TCP/IP, **Firewalls**, **IDS/IPS**, VPNs.
- **Operating Systems:** Windows, **Linux** (basic administration), Kali Linux, **Arch** Linu**x.**
- **Soft Skills:** Problem-solving, **Communication**, Team Collaboration.

PROFESSIONAL EXPERIENCE

Trainee – SoC Analyst (6 months)   *Aug 2023 – Jan 2025*
Sequretek Mumbai, Maharashtra

- **Monitored** and **analyzed 1000+** daily security alerts, filtering out **~75–80%** false positives.
- Escalated **~10–15%** of incidents to **L2/L3** teams after in-depth investigation.
- Investigated phishing attempts, brute-force attacks, and malware-related alerts.
- Reduced average incident response time by ~20% through efficient log analysis.
- Hands-on with SIEM tools: **Splunk, QRadar**.
- Practiced containerization of simple applications using **Docker** and managed them with Docker Compose.

Intern – SOC Analyst Intern (1 month)   *Mar 2022 – Apr 2022*
Wyreflow Technologies, Remote

- Assisted in real-time monitoring of security logs and suspicious activities.
- Supported incident response team in triaging and preparing reports.
- Learned SOC workflows including alert prioritization, escalation, and documentation.
- Worked with SIEM dashboards   for event correlation and rule creation.

PROJECTS

Anime DB Web App – CI/CD Deployment Project
GitHub: https://github.com/VenomMonstee/anime-db

- Developed and deployed a responsive Anime Database website using **HTML**, **CSS**, and **JavaScript**.
- Configured automatic deployment using **Vercel CI/CD pipeline** from **GitHub** repository.
- Optimized build process and integrated version control with Git for seamless updates.
- Followed best DevOps practices by automating deployment, ensuring zero-downtime releases.

Weather Website – CI/CD Deployment using GitHub + Vercel
GitHub: https://github.com/VenomMonstee/Weather-Website-

- Built a weather forecast web application using HTML, CSS, and JavaScript with OpenWeatherMap API integration.
- Deployed the app on V**ercel** with automated GitHub-based **CI/CD pipeline**.
- Configured version-controlled deployments enabling seamless code pushes and instant previews.
- Followed DevOps principles for fast, testable, and reliable frontend delivery.

EDUCATION

QSpider Trainee in SOC Analyst   *Aug 2024 – Dec 2025*
Pune, Maharashtra

Bachelor of Technology in Electronics & Power (B.Tech)   *May 2020 – July 2023*
Pr.Pote Patil Research College of Engineering, Amravati, Maharashtra

CERTIFICATES

- Python Machine Learning | [Certificate](#)
- Introduction to Cybersecurity | [Certificate](#)
- CompTIA Security+ (in progress) | [Certificate](#)
